Tony Mullin

Tony has 20 years regeneration experience working for various local authorities and regeneration partnerships in the north of England. In 2009 he set up Communitask, a consultancy which specializes in community engagement and neighbourhood planning.

Our values...

We believe that everyone has the right to live in a decent area with decent facilities. We are frustrated that so often, the people and places that most need it don't get the help they need. Your Back Yard is our way of doing something about this, by finding ways to make great projects happen in the most deprived parts of the North.

But we don't want to parachute into an area and then disappear. We always look to build long-term benefits into our projects, for example by building training, volunteering and job opportunities into the way the projects are delivered. And we will support local community development and active participation in the way that the projects are developed.

We will not charge community groups in deprived areas for our work - we will work with them for free (what we call 'pro bono'). We are trying to earn a living from Your Back Yard, but will seek funding from Local Authorities, the Lottery and other funders for that.

Places to be proud of

PLACES TO BE PROUD OF - Your Back Yard help people identify what is needed in their community, find the money for it, and help make it happen.

Whether it is youth clubs, play areas, community buildings, healthy living, training or tackling social problems, we aim to ensure that those places that need it most get help to make things better. We are doing this because we want to make sure communities in deprived areas improve, and want to help them get their of funding to do this.
